<sup>i</sup> **General Government Sector** means that the agency is classified in Government Finance Statistics in the [General Government Sector](#).

- The GGS sector, public non-financial corporations and public financial corporations are classifications based on those used by the Australian Bureau of Statistics and comply with international standards.
- The primary function of entities classified in the GGS sector is to provide public services that are mainly non-market in nature, and for the collective consumption of the community, or that involve the transfer or redistribution of income. These services are largely financed through taxes and other compulsory levies, although user charging and external funding have increased in recent years.
