

WoAG Travel Advice 2018/19

Subject: Lion Air – Revised Advice

Issue date: 1 November 2018

Dear Entity Travel Manager,

This advice supersedes *WoAG Travel Advice 2018/18: Lion Air – Announcement from DFAT* issued on 30 October 2018.

As a result of the Lion Air plane crash on 29 October 2018, the Department of Foreign Affairs and Trade has instructed all Australian Government officials and contractors **in Indonesia** not to fly with Lion Air or its subsidiary airlines until further notice. This instruction has been included on the Smartraveller website.

Subsidiary airlines are Batik Air, Wings Air, Thai Lion Air, Malinda Air, Lion Langkawi and Lion Air Australia.

The direction will be reviewed when the findings from the air crash investigation are announced. Until that time, DFAT has advised a high degree of caution when travelling to Indonesia overall.

For further updates, please refer to the Smartraveller website.

Please contact woagtravel@finance.gov.au if you require further information.
