

Comcover Risk Management Education Program

Foundation Pathway

Comcover is the Australian Government's self-managed insurance fund. To help fund member entities improve their risk management capability, Comcover provides a comprehensive education program which is available free of charge.

The **Foundation Pathway** covers the basics of an Australian Public Servant's responsibilities to manage risk. Participants will also learn about the role Comcover plays in protecting the Commonwealth Budget, financial standing and reputation. The **Foundation Pathway** comprises two eLearning courses; both are available through the Comcover Learning Centre.

1. Introduction to Risk in the Commonwealth

The **Introduction to risk in the Commonwealth** eLearning course provides you with the foundation for understanding risk and its management in the Commonwealth. The course introduces you to risk management principles and the Commonwealth Risk Management Policy, with the aim of encouraging better public sector risk management practice.

2. Introduction to Comcover

Introduction to Comcover is an eLearning course to familiarise you with Comcover and how it helps entities and their staff manage risks through:

- the Comcover Fund, which protects against the financial impact of coverable losses
- a range of services to promote better risk management practices in the Commonwealth public sector, including education delivered as eLearning, face-to-face workshops and events.

- *“An introductory course such as this is a very helpful tool.*
- *“I thought the eLearning experience was a very good one - easy to use, varied presentation with videos well utilised. I would recommend this course and look forward to other eLearning Comcover training.”*
