

# Comcover Risk Management Education Program

## Generalist Virtual Pathway

**Comcover** is the Australian Government's self-managed insurance fund. To help fund member entities improve their risk management capability, Comcover provides a comprehensive education program which is available free of charge.

To increase our reach to Fund Members located outside Canberra, and also provide an alternate means to partake in our education program for Fund Members located in Canberra, Comcover is offering its **Practical Risk Management** course through a Virtual Pathway. The course has been designed to help participants:

- apply a risk management framework to their current role responsibilities,
- plan and conduct risk assessments within their entity's framework,
- develop risk treatment plans and strategies, and
- understand the attributes of informed and persuasive risk communication.

As part of the Virtual Pathway you are required to first complete the eLearning component. The eLearning introduces you to the practical steps in risk management.

Upon completion, you can then register to attend your preferred virtual workshop sessions. The virtual workshops are held as three x 90 minute sessions over two consecutive days delivered via the GovTEAMS platform, and requires some pre-reading to actively participate in the workshop sessions

Both completion of the eLearning and registration for your preferred virtual workshop session can be done through the Comcover Learning Centre.

### Testimonials

*"The virtual training allowed for completion of the course, especially important during COVID for those where travel could not be possible."*

## Program information

### Target Audience:

APS officers who encounter risk every day in the course of their work. For example, managing the risks associated with project or program delivery.

### *Practical Risk Management*
