

Comcover Risk Management Education Program

Executive Virtual Pathway

Comcover is the Australian Government's self-managed insurance fund. To help fund member entities improve their risk management capability, Comcover provides a comprehensive education program which is available free of charge.

As a senior executive official, you will be practising risk management on a daily basis. Comcover's course provides a flexible way to gain an update on contemporary practices.

The **SES Risk Management Professional Development:**

A Strategic Perspective to Managing Risk is an interactive virtual program to explore your ability to provide you with an opportunity to discuss and consider approaches to developing:

- a strategic approach to risk management within your entity and across the APS, and
- a positive risk culture within your entity and across the APS.

Upon completion of the program, you will be able to:

- explain risk appetite and risk tolerance
- outline opportunities for balancing risk and control within
- your entity
- identify elements of a positive risk culture, and
- predict whole-of-Government and shared risks.

The workshop is facilitated by a recognised risk management professional who has provided coaching and mentoring to public sector executives for over a decade.

You will be provided with comprehensive resources, including case studies, policy guidance (including the Commonwealth Risk

Management Policy), fact sheets and articles to review prior to attending the workshop.

After attending our virtual workshop, you are entitled to a free one hour risk coaching / mentoring session with the facilitator of your workshop. This coaching session is intended to provide ongoing risk capability support to you, which you can apply back within your entity.

Testimonials

"The course was very well pitched for an SES audience, and incredibly well facilitated by the presenter and staff supporting."
