Overseas Medical and Travel Assistance

December 2022

Comcover provides a range of overseas medical and travel assistance services for Fund Members. The services are available to expatriates and overseas travellers of Fund Members and are provided through [International SOS](#).¹ International SOS provides Fund Members access to a dedicated Comcover assistance centre, clinics and health providers, local expertise, preventative advice, and emergency assistance during periods of critical illness, accident or civil unrest. International SOS's network includes over 1,000 locations in 90 countries, providing 24-hour overseas medical and travel assistance services to Fund Members.

Membership Card

Travellers and expatriates should obtain an **International SOS Comcover membership card** and carry this with them at all times while overseas. The card can be provided through the Fund Member Comcover Insurance Contact and can be printed from the International SOS Comcover Membership Portal. The membership card details the Comcover membership number, the dedicated Comcover telephone number, and contact details for all other Assistance Centres.

Fund Member Resources

Comcover Membership Portal:

The portal houses over 220 country and 440 city guides, containing medical and travel information, risk ratings, and alerts.² A link to the portal is available on either the [Comcover Launchpad](#) or through [International SOS](#). (Login with membership no.12ACMA000001).

Assistance App:

The International SOS [Assistance App](#) provides access to 24-hour medical and travel security information. The assistance app stores itineraries, facilitates one-touch dialling to the nearest assistance centre, contains medical, security and COVID-19 advice for any location, and notifies of precautionary and emergency alerts and advice in the local vicinity.

Tracker:

Tracker identifies personnel exposure, overlaid with the potential impact of medical and security incidents and all risks at destinations in which staff are currently located or due to be located. The platform allows managers to know where their travellers are at all times and can push communications to travellers to alert them to changing conditions and situations. Following a security incident, Tracker automates the first contact with travellers in the affected location via email, SMS, and text-to-speech, with nominated personnel receiving regular status updates.
