

Pathways to procurement

Build the knowledge, confidence and practical skills to succeed in procurement and contract management

I now have a broad and specific understanding of correct practices, policies & where to find the right resources to efficiently perform my role

Whether you're moving into a procurement role or have less than 12 months' experience, Pathways to procurement helps you build the skills needed to contribute confidently to Commonwealth procurement and contract management activities.

The program combines Finance-led learning, guest speakers, peer networking and a nationally recognised qualification in one structured development journey.

Learn the fundamentals

Gain practical capability
Build confidence and apply new procurement and contract management skills immediately in the workplace.

Apply real world procurement skills

Earn a recognised qualification
Successfully completing the program leads to a Certificate IV in Procurement and Contracting.

Build your network

Grow your career

Complete a certificate IV

Connect across the APS
Learn alongside peers from different entities and grow your professional network.

Ready to build your procurement capability?

Pathways to procurement is designed for APS officials who are new to procurement and contract management. Speak with your manager and nominate for an upcoming round.
