

Flight information is provided to the Department of Finance by the Australian Government Travel Management Services provider QBT Pty Ltd.

Domestic flights may comprise multiple segments booked on a single ticket and may span more than one location and/or flight class.

The domestic flights listed below for 2021-22 all included at least one business class segment. Due to the data available from QBT, the total cost represents the overall flight costs on the ticket, not just the business class segment(s).
