OFFICIAL

Hi s 22 and team,

Thank you for sending these through. PBS, Vaccines and Emergency Response AAU has a few questions in relation to some MOFs. We would appreciate answers to the below by **2pm Friday 6 September** – please let us know if there will be issues meeting this timeframe.

s47

P1.8 Health Protection, Emergency Response and Regulation
Novavax COVID-19 Vaccine

- Would be grateful if Health could clarify the authority for extending the funding beyond the terminating date. s47
- Regarding contract negotiations with Novavax, our understanding is that as of July, Health and Novavax had reached an in-principle agreement to cancel only the Q4 2023 doses.
 - i. Has in-principle agreement been reached to cancel the Q2 2024 doses?
 - ii. Have negotiations progressed to the point we have certainty on the cancellation of the Q4 2023 (and potentially Q2 2024 doses), or when a formal agreement will be reached?
 - iii. Related to the above, do we have certainty around whether Health will be required to pay for doses that Novavax have been unable to supply?

s 22

s 22

Thank you and look forward to hearing from you.

Kind regards,

s 22
